Dear SES Families,

It is that time of year again! Below you will find helpful guidelines for preparing your child for SOL testing and a detailed testing schedule. All of the SOL assessments will be on the computer. Please help your child do the best they can by following these guidelines:

- **Students should get to bed early enough to have an appropriate amount of rest for the next day's test.**
- **Students should have a wholesome breakfast each morning, either at home or at school.**
- **Students should arrive at school on time to avoid any issues with tests starting on time. Should a student be late on a testing day, that student will be held in another location other than testing areas until the test session is over and will have to do a make-up test at an alternate time.**
- **Parents should take note of when their child's assessments are and notify the teacher in advance if there are any appointments or planned absences that will impact the student's attendance for testing.**
- **Most important of all, give your child a positive and encouraging send-off on the mornings of testing!**
